MANULIFE JAPAN

Client: Manulife Japan
Domain: Insurance
Role: Jr. Product Specialist & Associate

PROJECTS UNDERTAKEN:
1. **LINC – Unisys unbundling**

Project Details: According to the "Policy Data Registration/Inquiry system," MLJ registers policy data in LINC in accordance with the prescribed standards and makes inquiries for the status of overlapping purchase. Under the current system, Unisys manages the information of INGENIUM policies and connects with LINC, and obtained information is communicated with INGENIUM via Unisys.

Now, however, INGENIUM shall take the role of connecting with LINC as part of Unisys unbundling. Accordingly, INGENIUM will manage the information of the Unisys policies, transmit to LINC, and communicate with Unisys for the information received from LINC on the part transmitted as Unisys policies.

LINC – Life Insurance Network Center of Life Insurance Association of Japan.

2. **Unisys Data Migration – Data Patch Request**

Client   : Manulife Japan
Domain   : Insurance
Environment   : COBOL
Role   : Jr. Product Specialist

Project Details: Unisys receives data corrections as Data Patch. Implementing the same logic in Ingenium

3. Unisys Data Migration – Movement

Client   : Manulife Japan
Domain   : Insurance
Environment   : COBOL
Role   : Jr. Product Specialist

Project Details: After Policy creation, the other changes are moving from Unisys to Ingenium through the process of movement.

4. Anti-money Laundering

Client   : Manulife Japan
Domain   : Insurance
Environment   : COBOL
Role   : Jr. Product Specialist
Project Details:
As part of enhancing counter measures for anti-money laundering, the following three measures were taken,
In order to conduct precise AML/ATF and anti-social forces screening for beneficiaries of existing policies, we will expand the data fields in the policy so that the Kana name, sex, date of birth and address of a beneficiary can be registered. Weekly automatic screening process which is a global regulatory requirement was introduced. Possibly detect the withdrawal of money and similar actions by a customer who has been designated as high risk and flagged so.

5. Valuation

Client   : Manulife Japan
Domain   : Insurance
Environment   : COBOL
Role   : Associate - projects

Project Details:
The main objective of valuation is to calculate reserve of every month end subject to Canadian GAAP & US GAAP and to make valuation reports. In addition, other actuarial information is made for various financial reports and analysis such as source of earnings.

6. Emperor Date/Era conversion

Client   : Manulife Japan
Domain   : Insurance
Environment   : COBOL
Role   : Associate - projects
Project Details:
Following the new emperor, MLJ will respond to change of era in INGENIUM's online screen, form, tax payment reports and other interfaces.

Change of Year correspondence -> Support to convert the new era name or Emperor Calendar to Western year format.

RESPONSIBILITIES:

- Performed Impact Analysis
- Worked on creating the business documents such as design documents and SRS documents.

- Coded New Components and Enhanced Code for Existing Components according to the design
- Created Unit Test Cases and has worked in Quality center and executed them
- Extended Support for Connectivity Testing, SIT, UAT and Regression Testing
- Worked on Project Implementation Tasks

7. **Onsite Experience - Japan**

Got the opportunity to work at the client location, Japan for a short term as a techno functional for new product development.
